## Director's message

**Dr. Ajay Rana**  
Director, ILAMED

### Welcome to ILAMED

Aesthetic Medicine is meeting an unprecedented boom, with an increasingly growing number of people in demand of aesthetic care and a consequent need for trained practitioners.

To answer this need, the Institute of Laser and Aesthetic Medicine was created in 2007.

ILAMED's motto is **Excellence in Knowledge**, which stems from the vision of its founder, who laid down the

foundations for a world-class Institute that can leave an enduring legacy; and defend and promote Laser & Aesthetic Medicine.

Excellence is distilled at all the operational levels of the Institute: be it in the choice of Faculty, the approach towards various curriculae, or the selection of students and partners. It is only through this vision of excellence that the best can be achieved, that the best can be offered to the doctors and professionals coming for training at ILAMED, who will then bestow the knowledge they have acquired at ILAMED upon the society.

ILAMED is quickly becoming internationally renowned for its brilliance in teaching and wide range of courses.

We are looking forward to count you among our long list of peers and esteemed colleagues.

### Dr. Ajay Rana

Founder and Director, ILAMED  
Professor, University of Greifswald, Germany

## ILAMED Courses

### International Diploma in Aesthetic Laser Medicine (DALM) of the University of Greifswald, Germany

ILAMED is the Off-Campus Centre of the DALM Program of Greifswald University, Germany and brings the DALM programme (1 Year) to the English-speaking countries. The qualifying candidates will be awarded with the prestigious DALM German Diploma.

### Fellowship in Aesthetic Medicine (FAM)

It is an exhaustive Program that covers all the major topics in Aesthetic Medicine, ranging from Botox, Fillers to Lasers and more. It include theory, live-demonstrations and hands-on training.

### Fellowship In Aesthetic & Anti-aging Medicine (FAAM)

Fellowship in Aesthetic & Anti-Aging Medicine (FAAM) is a one year full time programme in which the resident physicians are required to work in the ILAMED attached cosmetic centres, where they will be assisting, observing and mastering the procedures in cosmetic dermatology .

### Fellowship in Medical Cosmetology (FMC)

The importance & usage of Cosmetology techniques in the field of medicine has opened doors for physicians/allied physicians to a thriving professional career. This Fellowship helps them to gear up with the expertise needed to perform these procedures on day to day basis.

### PG Diploma in Medical Trichology

Medical trichology is a branch of dermatology that focuses on hair and scalp disorders. Investigation is carried out by physicians, who specialise in this area and apply a traditional medical approach based on taking a full history, examination, investigation and treatment. PGDMT focuses and prepares the physicians in diagnosing and treating these conditions successfully in their day to day practices.

### Fellowship in Aesthetic Dentistry (FAD)

FAD provides the General Dental Practitioner with an educational route to acquire the skills and knowledge required of a Dentist with special interest in the growing art of cosmetic dentistry.

### Indo-German Board Certification Program

It is the only university based board certification program you can find in the world, taught by faculty who are experts in their fields. Becoming IGBAMS Board Certified provides you with the tools & means to practice the art and science of aesthetic medicine anywhere in the world.

### Postgraduate Diploma in Clinical Cosmetology (PGDCC)

PGDCC Programme equips students with the knowledge and skills required to be experts in cosmetology procedures in a clinical setup. This intensive hands-on programme not only provides you the necessary skills but also comes with a German certification, which means more authenticity to your practice.
